Contents

VOLUME 14, NUMBER 1, FEBRUARY 1989

A. G. COOK and T. J. PERFECT: The population characteristics of the brown planthopper, *Nilaparvata lugens*, in the Philippines 1–9

A. L. V. DAVIS: Nesting of Afrotropical *Oniticellus* (Coleoptera, Scarabaeidae) and its evolutionary trend from soil to dung 11–21

KEITH R. DAY and ALLAN D. WATT: Population studies of the beech leaf mining weevil (*Rhynchaenus fagi*) in Ireland and Scotland 23–30

ROBERT F. DENNO, KAREN L. OLMSTEAD and ERIC S. McCLOUD: Reproductive cost of flight capability: a comparison of life history in wing dimorphic planthoppers 31–44

GREGORY M. ENGLISH-LOEB: Nonlinear responses of spider mites to drought-stressed host plants 45–55

MARTHA S. HUNTER: Sex allocation and egg distribution of an autoparasitoid, *Encarsia pergandiella* (Hymenoptera: Aphelinidae) 57–67

A. D. LEES: The photoperiodic responses and phenology of an English strain of the pea aphid *Acyrthosiphon pisum* 69–78

NICOLA M. MARPLES, PAUL M. BRAKEFIELD and RICHARD J. COWIE: Differences between the 7-spot and 2-spot ladybird beetles (Coccinellidae) in their toxic effects on a bird predator 79–84

ATHOL McLACHLAN and RACHEL NEEMS: An alternative mating system in small male insects 85–91

SANDRA D. MOORE: Regulation of host diapause by an insect parasitoid 93–98

GORDON PRITCHARD: The roles of temperature and diapause in the life history of a temperate-zone dragonfly: *Argia vivida* (Odonata: Coenagrionidae) 99–108

PING-MAN SO and DAVID DUDGEON: Variations in the life-history parameters of *Hemipyrellia ligurriens* (Diptera: Calliphoridae) in response to larval competition for food 109–116

WADE B. WORTHEN: Predator-mediated coexistence in laboratory communities of mycophagous *Drosophila* (Diptera: Drosophilidae) 117–126

Short communication P. KAREIVA and R. PERRY: Leaf overlap and the ability of ladybird beetles to search among plants 127–129

BOOK NOTICES 10, 22, 56

VOLUME 14, NUMBER 2, MAY 1989

MICHAEL AUERBACH and DANIEL SIMBERLOFF: Oviposition site preference and larval mortality in a leaf-mining moth 131–140

H. ELIZABETH BRAKER: Oviposition on host plants by a tropical forest grasshopper (*Microtylopteryx hebardi*: Acrididae) 141–148

CHEN RUI-LU, BAO XIANG-ZHE, V. A. DRAKE, R. A. FARROW, WANG SU-YUN, SUN YA-JIE and ZHAI BAO-PING: Radar observations of the spring migration into northeastern China of the oriental armyworm moth, *Mythimna separata*, and other insects 149–162

JAMES T. CRONIN and DOUGLAS E. GILL: The influence of host distribution, sex, and size on the level of parasitism by *Itoplectis conquisitor* (Hymenoptera: Ichneumonidae) 163–173

FERENC KOZÁR: Microhabitat specialization and similarity of scale-insect assemblages on different fruit trees and in different countries 175–180

VOLUME 14, NUMBER 2, MAY 1989

MICHAEL AUERBACH and DANIEL SIMBERLOFF: Oviposition site preference and larval mortality in a leaf-mining moth 131–140

H. ELIZABETH BRAKER: Oviposition on host plants by a tropical forest grasshopper (*Microtylopteryx hebardi*: Acrididae) 141–148

CHEN RUI-LU, BAO XIANG-ZHE, V. A. DRAKE, R. A. FARROW, WANG SU-YUN, SUN YA-JIE and ZHAI BAO-PING: Radar observations of the spring migration into northeastern China of the oriental armyworm moth, *Mythimna separata*, and other insects 149–162

JAMES T. CRONIN and DOUGLAS E. GILL: The influence of host distribution, sex, and size on the level of parasitism by *Itoplectis conquisitor* (Hymenoptera: Ichneumonidae) 163–173

FERENC KOZÁR: Microhabitat specialization and similarity of scale-insect assemblages on different fruit trees and in different countries 175–180

MARC MANGEL and BERNARD D. ROITBERG: Dynamic information and host acceptance by a tephritid fruit fly 181–189

D. B. McCORQUODALE: Soil softness, nest initiation and nest sharing in the wasp, *Cerceris antipodes* (Hymenoptera: Sphecidae) 191–196

JOHN S. NOYES: The diversity of Hymenoptera in the tropics with special reference to Parasitica in Sulawesi 197–207

SÖREN NYLIN: Effects of changing photoperiods in the life cycle regulation of the comma butterfly, *Polygonia c-album* (Nymphalidae) 209–218

LORI STEVENS and DAVID E. McCAULEY: Mating prior to overwintering in the imported willow leaf beetle, *Plagiodera versicolora* (Coleoptera: Chrysomelidae) 219–223

A. D. WATT: The growth and survival of *Panolis flammea* larvae in the absence of predators on Scots pine and lodgepole pine 225–234

Short communication A.-K. EGGERT and J. K. MÜLLER: Pheromone-mediated attraction in burying beetles 235–237

Short communication B. R. KAUSHAL and SHAMILA KALIA: The effects of *Dicranognathus nebulosus* (Coleoptera: Attelabidae) on acorns of *Quercus leucotrichophora* 239–241

Short communication TOM OFUYA and SAM AGELE: Ability of ovipositing *Callosobruchus maculatus* females to discriminate between seeds bearing their own eggs and those bearing eggs of other females 243–246

VOLUME 14, NUMBER 3, AUGUST 1989

M. DEANE BOWERS and GILLIAN M. PUTTICK: Iridoid glycosides and insect feeding preferences: gypsy moths (*Lymantria dispar*, Lymantriidae) and buckeyes (*Junonia coenia*, Nymphalidae) 247–256

J. CASAS: Foraging behaviour of a leafminer parasitoid in the field 257–265

M. D. HUNTER and P. G. WILLMER: The potential for interspecific competition between two abundant defoliators on oak: leaf damage and habitat quality 267–277

FOLKE K. LARSSON and JAN TENGO: The effects of temperature and body size on the mating pattern of a gregariously nesting bee, *Colletes cunicularius* (Hymenoptera: Colletidae) 279–286

JAMES S. MILLER and PAUL P. FEENY: Interspecific differences among swallowtail larvae (Lepidoptera: Papilionidae) in susceptibility to aristolochic acids and berberine 287–296

M. J. PACKER and PHILIP S. CORBET: Size variation and reproductive success of female *Aedes punctor* (Diptera: Culicidae) 297–309

D. E. PEDGLEY, W. W. PAGE, A. MUSHI, P. ODIYO, J. AMISI, C. F. DEWHURST, W. R. DUNSTAN, L. D. C. FISHPOOL, A. W. HARVEY, T. MEGENASA and D. J. W. ROSE: Onset and spread of an African armyworm upsurge 311–333

ERIK PETERSSON: Age-associated male mating success in three swarming caddis fly species (Trichoptera: Leptoceridae) 335–340

HELMUT SCHLUMPRECHT: Dispersal of the thistle gallfly *Urophora cardui* and its endoparasitoid *Eurytoma serratulae* (Hymenoptera: Eurytomidae) 341–348

PING-MAN SO and DAVID DUDGEON: Life-history responses of larviparous *Boettcherisca formosensis* (Diptera: Sarcophagidae) to larval competition for food, including comparisons with oviparous *Hemipyrellia ligurriens* (Calliphoridae) 349–356

SARA VIA: Field estimation of variation in host plant use between local populations of pea aphids from two crops 357–364

BOOK REVIEW 266

CORRIGENDUM 278

VOLUME 14, NUMBER 4, NOVEMBER 1989

S. G. COMPTON, J. H. LAWTON and V. K. RASHBROOK: Regional diversity, local community structure and vacant niches: the herbivorous arthropods of bracken in South Africa 365–373

V. G. DETRIER: Patterns of locomotion of polyphagous arctiid caterpillars in relation to foraging 375–386

S. FINCH and T. H. JONES: An analysis of the deterrent effect of aphids on cabbage root fly (*Delia radicum*) egg-laying 387–391

ROBERT S. FRITZ and JENNIFER NOBEL: Plant resistance, plant traits, and host plant choice of the leaf-folding sawfly on the arroyo willow 393–401

D. KOVAC and U. MASCHWITZ: Secretion-grooming in the water bug *Plea minutissima*: a chemical defence against microorganisms interfering with the hydrofuge properties of the respiratory region 403–411

L. P. LOUNIBOS and L. B. DEWALD: Oviposition site selection by *Mansonia* mosquitoes on water lettuce 413–422

D. A. MACKAY and R. E. JONES: Leaf shape and the host-finding behaviour of two ovipositing monophagous butterfly species 423–431

M. J. PACKER and PHILIP S. CORBET: Seasonal emergence, host-seeking activity, age composition and reproductive biology of the mosquito *Aedes punctor* 433–442

N. A. STRAW: The timing of oviposition and larval growth by two tephritid fly species in relation to host-plant development 443–454

N. A. STRAW: Taxonomy, attack strategies and host relations in flowerhead Tephritidae: a review 455–462

Short communication CLIFFORD W. BENINGER: Oviposition rhythm of *Drosophila algonguin* (Diptera: Drosophilidae) 463–466

Short communication PETER M. DAVIES and IAN R. DADOUR: A cost of mating by male *Requena verticalis* (Orthoptera: Tettigoniidae) 467–469

Short communication VERONIKA E. FEICHTINGER and DUNCAN REAVEY: Changes in movement, tying and feeding patterns as caterpillars grow: the case of the Yellow Horned moth 471–474

Short communication FRANCIS L. W. RATNIEKS and JAN NOWAKOWSKI: Honeybee swarms accept bait hives contaminated with American foulbrood disease 475–478

Short communication DEBORAH A. WALLER and CLIVE G. JONES: Measuring herbivory 479–481
